BCI Foundation

NEW SCHOLARSHIPS

Celebrating Members' 100-Year Milestones

Two new $5,000 BCI Foundation scholarships honor Crown Battery and U.S. Battery Manufacturing.

Battery Council International (BCI) is establishing two new BCI Foundation scholarships for the 2027–2028 academic year to recognize two members that reached 100 years in business in 2026. A fellow BCI member made a $10,000 contribution to the BCI Foundation to fund the awards, honoring each company's contributions to BCI and the battery industry while supporting the next generation of battery and energy storage professionals.

$5,000 SCHOLARSHIP HONORING

CROWN BATTERY 100 YEARS SINCE 1926

A CENTURY OF POWER. A LEGACY OF PERFORMANCE.

$5,000 SCHOLARSHIP HONORING

U.S. Battery Manufacturing Company 100 YEARS 1926–2026

The BCI Foundation was created in 2024 to mark Battery Council International's 100th anniversary, and supports students pursuing careers in electrochemistry and other technical fields tied to energy storage. The new scholarships bring the total number of awards for the 2027-2028 academic year to **four total scholarships** of up to $5,000 each, providing an opportunity to recognize the history and accomplishments of BCI members while investing in the future of the industry.

Who Can Apply

BCI Foundation scholarships are awarded annually to students studying electrochemistry, science, technology, engineering, mathematics, or another technical discipline that supports energy storage applications. Scholars are selected by an independent panel of reviewers.

About the BCI Foundation

Created in 2024 to mark BCI's 100th anniversary, the BCI Foundation is a stand-alone 501(c)(3) charitable organization. Its scholarships are administered in partnership with the University of the Aftermarket Foundation.
