

YOU'RE CRITICAL TO FIGHTING COVID-19

Without you, essential lead batteries that protect, connect, transport and power our lives during this crisis would not be available.

Protecting Our Lives

- + providing critical backup power for 911 call centers and emergency response teams
- + saving lives by providing emergency power when the lights go out

Connecting Our World

- + providing 90% of the backup power for 24/7 telecommunications
- + providing backup power to protect data keeping businesses and schools operating remotely

Transporting Goods and People

- + keeping emergency vehicles, semi-trucks and delivery vehicles running
- + powering forklifts that move materials and goods helping to build temporary hospitals

Thank you for keeping America going!
