

# THE U.S. BATTERY INDUSTRY

## Powering \$8.1 Trillion in Economic Output

Domestically produced batteries are used by a wide range of industries, households and the government to support day-to-day activities and critical operations. The resulting economic impact is enormous. Within the United States, domestic battery manufacturing contributes trillions of dollars to our economy and supports millions of jobs.

**\$8.1 Trillion**  
in domestic economic output.

Nearly **20%** Batteries enable almost one-fifth of the U.S. economy.

Nearly **48 Million U.S. Jobs** are reliant on the battery industry.

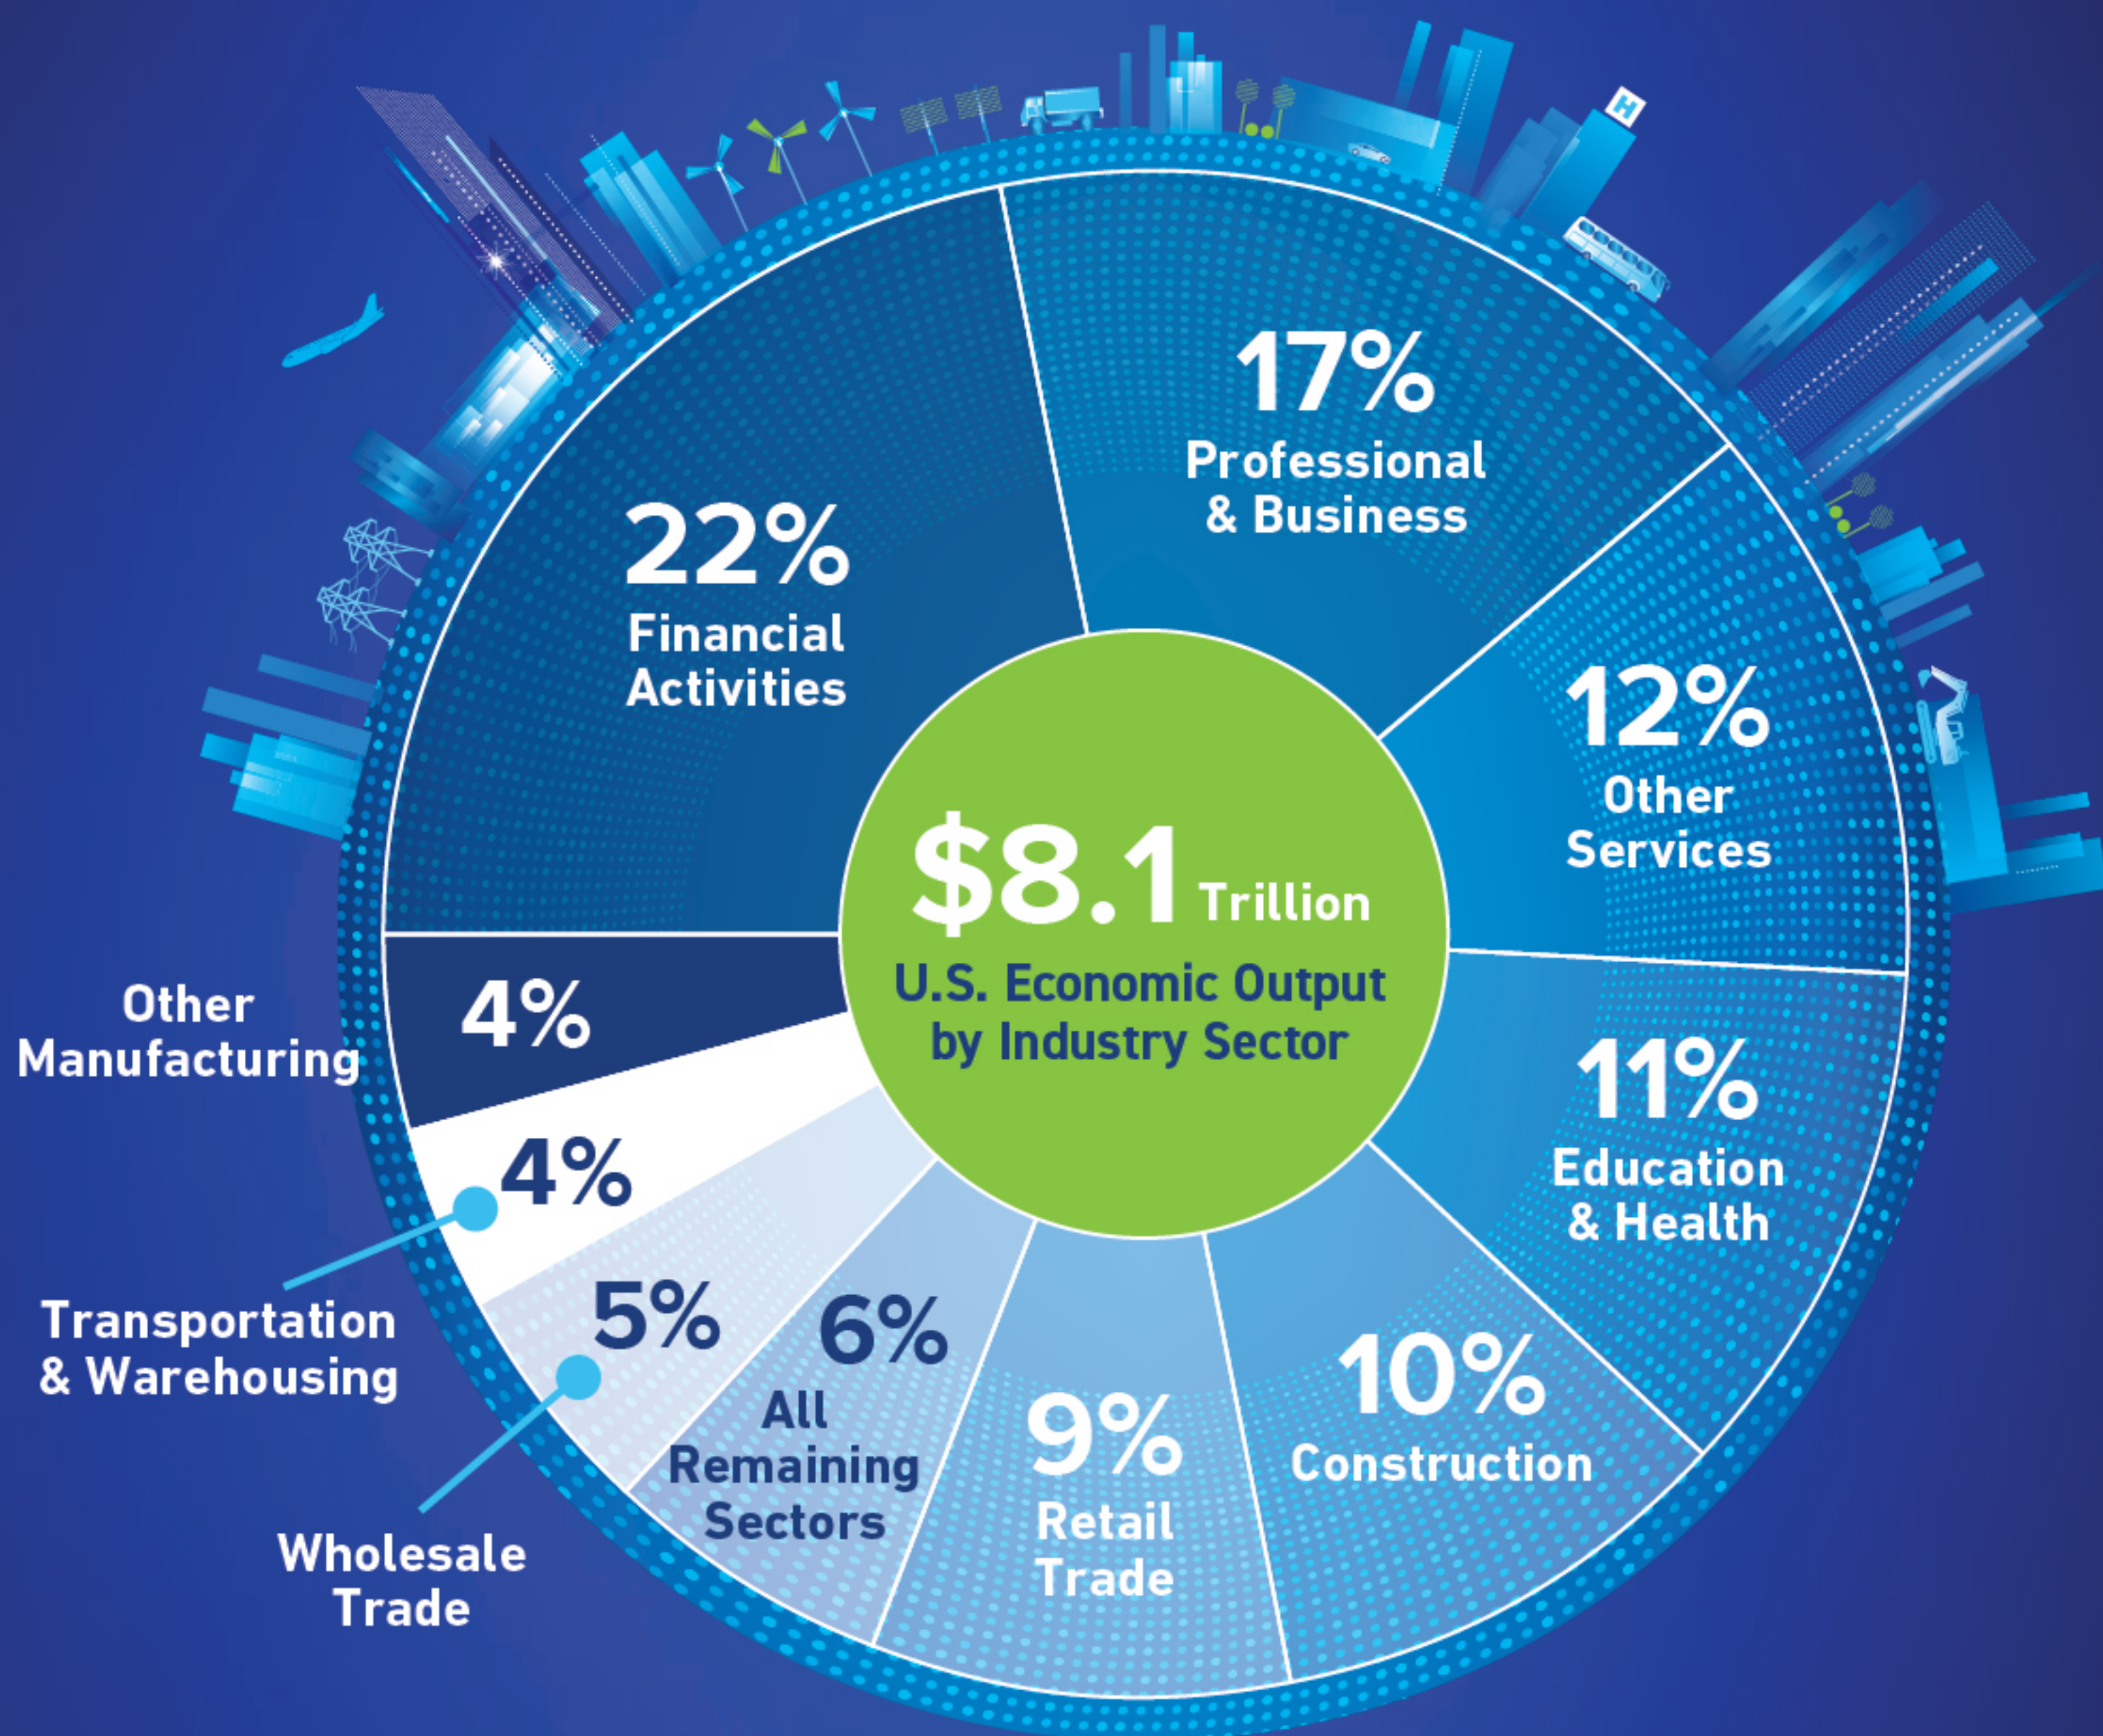

**\$7.1 Billion** in net sales for wholesale/retail outlets annually.

**\$12.2 Billion** is spent annually by industries on storage batteries to support day-to-day operations.

**\$7.5 Billion** in annual U.S. government and defense spending.

## Essential Energy That Powers Our Economy

Batteries support vital industry sectors, ensuring smooth and secure operations for downstream users of energy storage solutions.

## Transcending Borders

U.S. Lead Battery Exports Also Support Canada's Economic Growth

**\$578 Million** of U.S. lead battery exports are used by Canada.

**\$1.7 Billion** in Canadian economic output supported by U.S. lead battery exports.
